

June 2024

Dear customers,

Kohzu Precision Co.,Ltd.

Sales Dept.

Announcement of Photo sensor board's revision

Thank you for using our products.

We would inform you to revise the photo sensor boards installed in our standard motorized positioning stages to keep the stable supply of internal parts.

This is for responding to the recent difficulty in obtaining parts and maintain our stable supply of products.

There is no change in their specifications, wiring, exterior dimensions, board types and prices due to this specification change. In addition, new boards can also be used to replace the previous photo sensor boards.

Time of the replacement product will be as soon as it is ready, but please accept that there will be a mixture of new and previous products for some time.

[Applicable board models]

F-101、 F-102、 F-103、 F-104、 F-105、 F-106、 F-106R、 F-107、 F-108、 F-113、
F-115、 F-115R、 F-116、 F-116R

Thank you for understanding and cooperation.
